## ABOUT AAEL

AANGAN AGROTECH EXPORTS LIMITED was started in 1989 and located at kalol, (Mehsana) 45 kms from Ahmedabad - Gujarat. The initial capacity of plant is 7200MT/annum to produce PP/PE tape. Present output of plant is 22000 Kgs. /Day. Plant produces fabric up to size 36” inches tube (72” flat) and capacity is 300000-meter fabric per Day. So our finish sacks capacity is 12.5 million bags / month capable of producing uniform quality fabrics having least gauge and gram mage variation with given strength of the fabric / bags. The quality of our fabrics is un -matched with current available fabrics in local market.

Factory Infrastructure & Utility – The total plant area is extended over 1,39,392 sqft, in which constructed area is 70000 sqft. It is nearer to national highway and to major ports in Gujarat such as Mundra, Pipava, Kandala, and upcoming port Dholera and is convenient for exports.

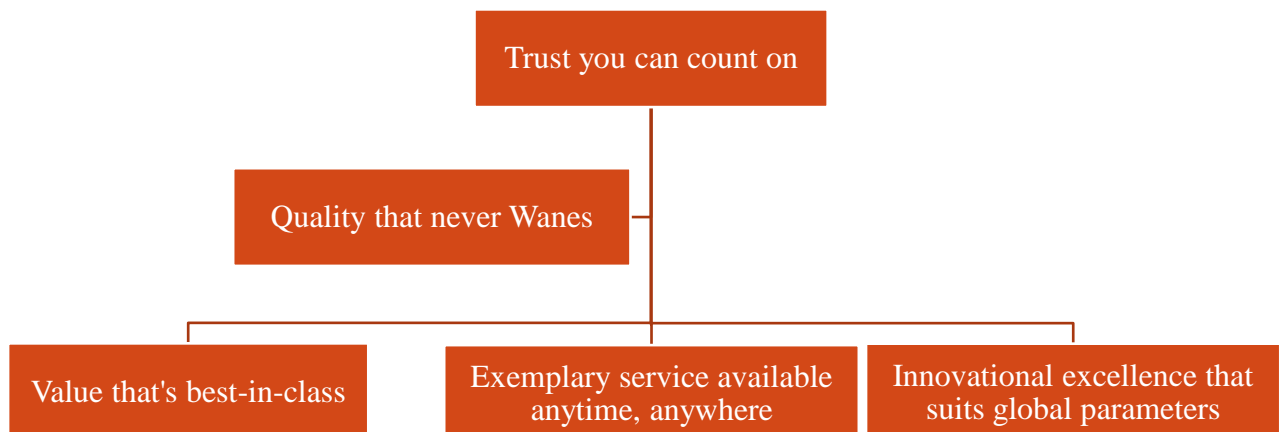

## WHY US

At AAEL, we believe in delivering **Result Driven Packaging Solutions.**

With this very ambition as our philosophy, we are striving to be a company with an all-inclusive portfolio and serve the entire spectrum of PP/PE Woven Sacks /FIBCs under one roof. It is our motto to become the reliable packaging partner of our client and work alongside them in development of new and innovative packaging solutions that are specifically aimed to meet the needs of our end users. Our core manufacturing capabilities facilitate prompt responses at each stage of the production process and customized requirements.

## REASONS TO CHOOSE US

### WHAT MAKES US STAND OUT?

## INDUSTRIAL CAMPUS

Aangan's industrial campus is a testament to the company's foresight. Located on the Golden Corridor, India's pioneering highway network, the facility is spread across a sprawling area and equipped with the latest technology to ensure seamless production. The industrial unit is segmented strategically to ensure all processes perform optimally, and scalability of manufacturing is maintained to deliver all products on time. Aiding our comprehensive manufacturing set-up is our testing facility that performs rigorous quality checks on all facets of production right from procurement to delivery.

- Extrusion Tape Lines.
- Circular Weaving Machines.
- Extrusion Coating Lamination Line.
- Polyethylene Liner Extrusion Line.
- Tape twisting machine.
- Lab Equipment: QUV, Rig test, tensile, etc.
- Other ancillary machineries for making of different type of PP Sacks & FIBC.

"When you choose Aangan Agrotech, you are partnering with a company for which customer satisfaction and requirements take priority. You also get assurance of international quality, timely deliveries and competitive prices".

**Mr. Paresh Rungta (CEO)**

## QUALITY & TESTING LAB

We believe 'Quality Assures Alliances'. It is the benchmark of lasting partnerships. For this very reason, Quality is the epitome of our system. Right from procurement, to manufacturing, to delivery, all the way to aftersales service, we have the values of highest quality imbibed in every facet of our business. From cutting-edge, in-house testing lab to physical quality control by skilled engineers and technicians, all products have to pass through string monitoring phases, to ensure every PP/PE Woven sack and FIBC from AAEL is as per international standards. One of the biggest strengths of our quality protocols is third party audit. We employ reputed external quality inspectors, who report directly to the top management, thus ensuring that all our processes are always in immaculate conditions. In addition, we also use superior grade polymers and other additive materials combined with our world-class processing technologies, throughout our manufacturing activities.

The only way we could effectively pay back to this Society and the environment at large is by strengthening our corporate responsibilities. We aim at contributing to the environment by making use of eco-friendly production practices.

To encourage our team to work at their best potentials, we ensure work place safety by providing best safety gears to all. A comprehensive medical support for the employees and helping their children acquire education is what we have been doing as a part of our responsibility. This encourages all the employees to maintain positive workplace environment, a boost in their creativity productivity and ensures personal and professional growth.

This way we foster towards the development and growth of the society as a whole keeping in mind the concept of 'Make in India' and 'Skill India'.

## Global Presence

**5 Continents 85 Countries**

**USA | Europe | Asia | Africa | Australia |**

At Aangan, with our experience in the international domain, being a leading manufacturer, supplier and exporter of PP/PE Woven Fabrics, FIBC (Big Bags) and Small bags to more than 85 countries, we are driving product excellence to provide quality as per international standards
